Comments.

- (1) This report is contradictory to information [redacted] from Stendal inasmuch as it does not mention two trains with artillery troops [redacted] passing through the Stendal railroad station on 9 and 10 May respectively. The reference report stated that the trains came from the direction of Berlin and proceeded toward Gardelegen. [redacted]
- (2) A troop train [redacted] Hq 3d Gds AAA Div, which consisted of 1 boxcar and 30 flatcars and was en route from Koenigswusterhausen to Magdeburg on 18 May, was previously reported [redacted]

- (3) All of the empty shuttle-trains were previously reported [redacted] 25X1
 [redacted] to have gone from Berlin-Lichtenberg to [redacted] 25X1
 Jueterbog, Rathenow and Wildpark. However, shuttle-train [redacted]
 25X1 [redacted] was reported to have gone directly to Jueterbog and
 25X1 shuttle-train [redacted] also to Jueterbog rather than Rathenow
 as stated in the present report. [redacted] 25X1
 Shuttle-train [redacted] of 53 boxcars with soldiers left the
 Soviet Zone of Germany eastbound via Kuestrin on 1 June, which
 is confirmed by the present report. [redacted] 25X1
 Since the shuttle-trains are obviously earmarked for the
 repatriation of discharges, it is doubted that eastbound
 shuttle-trains [redacted] which left Jueterbog and
 Rathenow on 28 May, should have actually been empty. 25X1
- (4) Shuttle-trains [redacted] are probably 25X1
 earmarked for the transportation of discharges to processing
 centers within the Soviet Zone of Germany, as in the fall
 of 1950. The discharges will probably be repatriated to the
 U.S.S.R. on shuttle-trains [redacted] 25X1
- (5) All troop trains except the trains with shipment-record [redacted] 25X1
 [redacted] and the two shipments from Treuenbrietzen and [redacted] 25X1
 25X1 Vetschau on 28 May were previously reported. [redacted] 25X1
- (6) The make-up of the train indicates that it is probably a
 shuttle-train [redacted] 25X1
- (7) The two shipments were previously reported [redacted] 25X1
 See paragraph 2 of the present report. [redacted] 25X1
- (3) The following units are confirmed [redacted] 25X1

the main signal depot of the GOFG, in Fuerstenwalde
